- Applicant must provide traffic control and/or traffic warning signs during road cut.
- Inspections must be scheduled 24 hours in advance by calling Public Works at (219) **374-7478**-M-F 7:00 am to 3:00 pm.

Cedar Lake Town Code 94.03-Restoration of Pavement

- (a) The opening, restoration and maintenance of a pavement or other surface shall be performed under the direction and to the satisfaction of the Director of Operations, Town Engineer, or other duly designated town representative, and in accordance with rules, regulations, and specifications approved by the Town Council.
- (b) In the event of the failure and/or refusal of the permittee to satisfactorily fill the excavation, restore the surface and remove all excess materials in accordance with the terms of the permit, and within the time specified in the permit, or where such time period is not specified in the permit within a reasonable time, the town may proceed without notice to make such fill and restoration. In the event the amount of the costs incurred by the town exceed the amount of the restoration services performed by it, the town shall be entitled and permitted to collect any excess amount due and owing from the permittee, including attorney's fees, court costs, and similar related expenses of collection.
