RECOGNITION:

On June 12, 2019, CLPD and CLFD were dispatched to Lighthouse Restaurant to assist a patron who was in distress and believed to be choking. Upon arriving on the scene and assessing the situation, Officer Godoy, Officer Machalk, Lieutenant Forsell, Paramedic/Firefighter Early and EMT/Firefighter Biegel began administering emergency treatment and assistance with a favorable outcome for the patient. Their actions that night saved the life of this choking patron and for their actions, the 5 public safety personnel were recognized for their job well done at the August 20th Town Council meeting.

WHAT IS A CENSUS AND WHY IS IT IMPORTANT?

Once a decade, America comes together to count every resident in the United States, creating national awareness of the importance of the census and its valuable statistics. The decennial census was first taken in 1790, as mandated by the Constitution. It counts our population, providing the basis for reapportioning congressional seats, redistricting, and distributing more than \$675 billion in federal funds annually to support states, counties and communities' vital programs — impacting housing, education, transportation, employment, health care and public policy. During the 2010 census, only 80% of Cedar Lake completed the Census. The total population captured at that time was 11,560. It was calculated that based on 100% participation, **\$19,245,800** was **lost** in funding for Cedar Lake! To learn more, visit the Town of Cedar Lake, Indiana – 2020 Complete Census Count Committee on Facebook or visit www.2020census.gov
