... and More

Keeping citizens informed.

The "CodeRED" high speed telephone emergency notification service is available for Cedar Lake residents. It gives officials the ability to deliver emergency telephone notification/information messages to targeted areas or the whole Town. All residents and businesses are urged to log on the Town's website (cedarlakein.org) and follow the link to the "CodeRED" page. This is where you will be able to register and make modifications for different notifications. The alert system will send text, voice, or email messages about local emergencies, road closures and more. There is also a "CodeRED" App, which you can download the free app on your smartphone. When a public safety official initiates a notification, you'll receive a push notification directly to your phone. The App will also work coherently when traveling to or through other Towns or Cities that use this notification system. Please contact the Public Works, (219) 374-7478 with any questions or concerns.
