Dale Holsti, President

Greg Marquardt

The new Park & Recreation Board had training in January and held their election of officers at their February Meeting. Meetings are the fourth Thursday of every month at 6 p.m. at Cedar Lake Town Hall, 7408 Constitution Avenue.

They want to know what amenities and activities you would like to see around town and are very eager for your input. They are compiling a survey for the public to fill out. More information on that will be forthcoming.

Road Construction Coming Soon

Road Construction will be starting very soon. Please drive with caution and follow any signage. Expect delays and slower travel times in areas of construction.

- Parrish Avenue from 133rd to 137th
- 133rd Ave. from Parrish west to the railroad tracks
- Vermillion from Cline Avenue to the east town limits
- Highland Subdivision streets

From the Desk of Chris Salatas, Town Manager

Welcome, Chris Salatas, Town Manager!

I would like to start by introducing myself, Chris Salatas, as the new Town Manager succeeding Rick Eberly on February 7th. Previously I worked as the Town Manager for St. John, and before that I was a Regional Director for the U.S. Senate. Before then, I served on the Lowell Town Council for over six years; I am proud of the business growth, park upgrades, water, and road infrastructure repairs that we accomplished during that time. I earned my undergrad from IU in Political Science and am currently studying for my Masters in Business Administration from University of Arizona. I was attracted to Cedar Lake because of the great potential the community has and the numerous exciting infrastructure projects that are moving forward. I look forward to getting to know the community better and helping to make Cedar Lake the destination community of Lake County.

Here is a list of projects that are on track and moving forward this year:

Lake Eco Restoration Project: This project is moving forward as planned with the Sediment Dewatering Facility construction being awarded to Dyer Construction. This facility will hold the dredged material from the lake while it dewateres before it can be moved.

Water Improvement Projects: The East Side water main transmission line and new water tower were awarded along with the Utopia water main replacement project. These projects are an investment to our water system to improve the municipal water delivery.

Public Safety Complex: The Town has selected to work with K2M to design the new building that will house the Fire and Police Departments with the design phase starting shortly. As the Town continues to grow it is important to have facilities that will adequately serve the needs of our first responders.

West Side Sanitary Sewer Interceptor Project (WSSSI) and Road Improvement Projects: Phase 1 of the WSSSI has been awarded and is on schedule. Similarly, the Road Improvement Projects for our Community Crossing Matching Grant are on schedule. We apologize in advance for the amount of orange traffic cones you are likely to see this year.

The Chiefs' Corner

Welcoming New Blue Blood – Bill Fisher, Chief of Police

WELCOME

Celebrating a Retiree's Service – Todd Wilkening, Fire Chief

Denny Wilkening – 50 Years

Dennis “Denny” Wilkening retired after 50 years of service as a Firefighter. Denny is a pillar of this community and continues to serve the Town on the Board for the Unsafe Building Department.

Denny started out as a Volunteer Firefighter and served in many ranks over the years, including the ranks of Lieutenant, Captain, Assistant Chief, Fire Chief, and Fire Inspector. He also served on the Town Council, Plan Commission, Hanover Central School Board, the Boys & Girls Club Board, and the Lake County Fire Chiefs Board. Denny is a member of Holy Name Church.

Thank you, Denny, for all you have done and continue to do for all of us.
